Action taken report is finally submitted to Principal and is
uploaded on College Website

B A & MA History Programme

Action Taken Report
2018-19

Based on the feedback given by the students, a faculty meeting was held on 09 July 2019 to review the related topics, under which most of the students of BA and MA History program appeared satisfied with the teaching learning and other facilities, but some issues under infrastructure are still there. There is a possibility of coming in the good category, so it was said to take action keeping in mind the need to upgrade physical facilities. In addition, teachers were asked to act on the need to cooperate more with students, try to understand their difficulties and support them whenever they have problems. Special attention needs to be paid to strengthen the mentor-mentee system. It was also directed that the students should be asked occasionally if they require any kind of academic and emotional support. Humanities teachers should organize various activities from time to time regarding the development of diverse skills of the students.

B.Sc. Medical/Non Medical Programme

Action Taken Report
2018-19

Maximum positive response from the students has helped a lot in promoting teaching learning experience but few things attract our special attention, under which there are some suggestions and challenges which can be taken at the departmental level to enhance the satisfaction of the students, will prove to be helpful. Further, we are pointing towards them only. It is necessary to take the following steps for the satisfaction of the students.

1. It was advised to increase the ICT equipment of the entire department.
2. The teachers were asked to encourage the students to participate in co-curricular activities.
3. Issues related to infrastructure like ventilation and electricity in the rooms were referred to the college administration

Commerce Programme (B.Com & B.Com Honors)

Action Taken Report
2018-19

The response of the students to the teaching learning in commerce appeared encouraging with maximum effective communication between the teacher and the students. One thing is clear from the feedback received from commerce students that there should be more physical activities: In this regard the teachers have been instructed to inform about the physical facilities like swimming pool, ground facilities, various clubs, NSS, Red Cross etc., so that they can take maximum part in extra co-curricular activities. Workshops and training should be arranged for the students. Regarding the feedback of the infrastructure, the suggestions related to the cleanliness of the canteen and sports etc. were given to the concerned departments. Teachers were asked to make their communication more conversational.

HEIS Programme

Action Taken Report
2018-19

90% feedback was given by the students of DCHN in favor of teaching and other facilities. As per the feedback one more sweeper and more cleaning is required in the area. As MSc IT students demand more latest books in library so there is need of upgradation of library and as per feedback water management system should be proper so same feedback is sent to college administration so that they facilitate students with these basic facilities. Continuous power backup is the main demand of the students of PGDCA. The department has its own backup system. Special instructions are given for its maintenance that they should use power backup as and when required. Weekly regular interactive sessions should also be done with the students.
