Biological Garden

Last week, I with the students to all classes, Made a programme to visit the Zoological Gardens. We took permission from our parents and Head Master / Principle, who very gladly allowed. The Sports in charge of the School College was the leader of the party. He engaged a bus and instructed us to be present till 8.00 A.M. The whole night was passed in arranging foods and other items. Before 08.00 AM, I reached the School College. The Sport In charge arrived with a bus and we got into it. After a while, the bus started. The bus was smoothly running on the road and we were enjoying to see them.

At about 09.00 AM we reached the Main gate of the Zoo. We got down from the bus and the Sports In charge purchased tickets.

4 After that we entered in the Zoo. There was great rush of children and women. However, we collected our lunch Boxes, Tape Recorders and other things and kept aside. A person was left to guard them. We walked in the Zoo and became too much delighted to see different types of birds, peacocks and swans. When we went before the cages of tigers, one of our friends became nervous to see the tigers. We rode on the elephant. At about 13.00 o'clock, we took our lunch and rested for some time. After that, we enjoyed with the crocodiles. The visit was too much enjoying such entertainment. It's a student fresh and delighted and we should visit different interesting places at least twice a year. This gives more knowledge and awareness of such things which are not known. We returned home at evening.

Hill Station

our college was closed for Summer Vacations on 15th May. It was very hot in Delhi. My Parents decided to go to Nilgiris. I too accompanied them.

We packed our luggage and got ready for the journey. We went to Coimbatore by ~~the~~ train. The railway journey was rather tiresome. From Coimbatore we went to Ooty by bus. We reached there in the afternoon and put up at a hotel.

Ooty is one of the best hill-station of India. It may be called the queen of hill-station. It has many beauty spots. Next day, after breakfast, we were crowded with tourists from different parts of the country. People were making all sorts of purchases.

After lunch we went to botanical gardens. We enjoyed the expense of horticultural beauty around our hearts content.

Nilgiris has a healthy climate. It is a beautiful summer resort. The Mountain slopes are covered with tall & green trees which present a caring sight at sunset and look very grand. The Morning and evening hours are very pleasant. A cool breeze sets up and refreshes the mind. It makes one forget time the oppressive heat of the plains.

Sea Shores

One Sunday afternoon, my parents and I went to the beach. After packing some food and drinks, we set off.

When we reached the beach, it was very crowded. The light breeze felt good as it brushed against our cheeks. We found a place under a shady tree to put our things. After changing into our swimming suits, we had a swim in the crystal clear water. A short while later, our stomachs were grumbling, so we changed into dry clothes and had a snack.

My sister and I went picking seashells after that. We then built a sand castle with the fine sand. While doing that, we saw beautiful small crabs walking on the sand.

Our family watched the sun set before we went home. Although tired, we were happy because we had a great time at the beach.

Ecological of animals

* **Animals** → Animals play a unique role in maintaining the balance of nature. Animals have several characteristics that set them apart from other living things. Animals can be insects, mammals, reptiles, fish, and other organisms that are not plants.

* **Kind of Animals** →

- ① Humans are superior to animals in knowledge.
- ② Different kinds of animals serve us in different ways.
- ③ Oxen help farmers.

* **COW** →

Cow is a domestic animal. Cow gives milk which is very nutritious and healthy. Cow is a very gentle and calm animal.

* Dog →

Dogs have been a loyal and faithful companion to Man throughout their lives and they ensure physical security and emotional support as our loving pets.

* Elephant → Elephants are called the largest Mammals living on land, whereas Blue whales are the largest animals that exist on earth.

* Camel → The camel is called the 'Ship of the desert,' and they are highly used as a medium of transportation in dry sandy areas by humans.

* Lion →

A lion is a wild animal. It has a strong body. It lives in the jungle. Lion is also called as King of the jungle.
