Annual Report S.U.S Govt College, Sunam (Session 2019-2020)

As we all know that due to Covid-19 we all have agreed on the serious and necessary action like lock down and have also followed it. In such situations it becomes the biggest duty of an institution to protect its students and teachers. Boost morale and don't let essential academic learning and activities stop. Our organization paid special attention to this and continued the education of the students through online medium. Under this, necessary lectures, notices etc. were made available to the students through YouTube channels, Google Meet, Zoom and WhatsApp. The last phase of the session 2019-2020 has been a strange mood for all of us as most of us have faced such a situation for the first time. Along with the education of the students, things like making them aware of Covid-19, fulfilling their responsibilities towards the family and the society, keeping healthy etc. by introducing them to many essential issues and implementing them practically became a challenge. Even when everyone was forced to sit in their homes, it was my aim and that of my teacher colleagues to play our role in building the society. While I am strengthened by the spirit of my staff members performing their duties in these difficult times, I also feel proud that I am a part of such an organization.
